LYNDON BIBLE CHURCH

Lyndonville, Vermont

Fieldstone Land Consultants PLLC (FLC) is pleased to have worked with Lyndon Bible Church.

FLC worked closely with the building committee to establish the project goals, site layout and final site design.

Services for this project included an existing conditions site survey, parking layout, grading, drainage and utility designs, local and state permitting, representation before the local planning commission and construction assistance.

The site was designed to meet Vermont Stormwater Permitting credits for low impact and environmentally sensitive designs. This helped streamline the permitting process, minimized construction costs and long term maintenance requirements.

We wish Lyndon Bible Church the best and look forward to working with them in the future!

Please feel free to contact Pastor Joel Battaglia for a reference.
