KILEY BARREL SITE Somerville, Massachusetts

Fieldstone Land Consultants PLLC (FLC) is pleased to have worked with TRC Solutions at the Kiley Barrel HAZMAT Site located in Somerville Massachusetts.

Services for this project included horizontal location of existing monitoring wells together with differential leveling circuits to elevate fixed points

within each well. Additional tasks included site topography, establishment of a permanent field baseline and preparation of a site worksheet to be used for future well investigations.

This project is a small sample of work that can be performed on any HAZMAT site by FLC.
